About Joji

Over the course of his career, Joji has become one of the industry's most enthralling and enigmatic artists, with over 16 billion combined streams to date. Following on the heels of RIAA Platinum-certified single "Glimpse of Us," which broke several records, his new album SMITHEREENS expands on the melancholic yet powerful emotions of the breakout hit. Of the album, Billboard raved, "Anyone familiar with Joji's dulcet tones and emotionally revealing lyricism could have predicted that he'd become a solo star." SMITHEREENS follows his album Nectar, executive produced and arranged by Joji, which bowed out at #3 on the Billboard 200 album chart. Joji's recently announced shows at Madison Square Garden in New York City and The Kia Forum in Los Angeles SOLD-OUT entirely during pre-sale less than a week after they were announced.
